RAILROADS AGREE TO AUTO RACES FEATURE THE REDUCED RATES

FROM CHARLESTON TO THIS

Will Mean The Saving of Many Dollars to the Buyers of This Section of the Country

(From Wednerday's Daily.)
Effective today a new rate will be granted by the railroads from Charleston to Anderson and to other cities and towns in this immediate section. The new rate will mean the saving of thousands of dollars.

Anderson people know what a fight

has been waged for freight rate re-ductions in this rection and the news that this reduction has been made will be welcomed.

The new tariff reduces the rates

on classes three, four and five, and also on classes A and B. These classes cover canned goods, meats, iron goods and other commodities. Goods shipped from the north to

the south by water may be transported from Charleston to the up-country with less cost. No other reduction of with less cost. No other reduction of this kind could have the effect that this one does. Charleston being a seaport town will get a great deal more trade for the lesser cost.

Merchants in Anderson will be benefitted by this change. The water rate to Charleston is also vory low and with this reduction there will be a great saving for Anderson.
